

The Flaming Marshmallows Present:

FLL[®] SEASON KICKOFF SHARING

This year for the ANIMAL ALLIESSM kickoff event we are including the teams in a team sharing event. We have created this to help new FLL teams get started and help existing teams take it to the next level. We are asking that teams bring something to share such as: a teamwork challenge, a robotics technique, or a cool presentation idea. A robotics technique might be a great line follower program or a way to quickly change attachments. Teams are being asked to come ready to present their strength. We are also asking that if you need tables or chairs that you bring them.
