

PRESENTING SPONSOR

The 2016-2017 Game:

VELOCITY VORTEXSM presented by Qualcomm[®] is played on a 3.7m x 3.7m (12 ft. x 12 ft.) square field with approximately 0.3m (1 ft.) high walls and a soft foam mat floor. The field is divided diagonally into a “red” and a “blue” side corresponding to the two alliances. In the center of the field are two goals on a rotatable stand called the Center Vortex. Two ramps, each with a goal, called the Corner Vortex, are placed in opposite sides of the field. The Center Vortex Goals and Corner Vortexes are alliance specific. There are also four alliance neutral Beacons, two placed on each front wall next to the Corner Vortex. There are floor markings as well as Vision Targets placed on the field walls as reference points for robot navigation.

Alliance specific scoring elements for VELOCITY VORTEXSM are five small balls called Particles and one large ball called a Cap Ball per alliance. At the start of a match, each alliance has three Particles available for preloading and scoring during the Autonomous period. Each alliance can earn up to two more Particles for use during the Driver-Controlled period by claiming Beacons during the Autonomous period.

Matches have two distinct periods of play: a 30-second Autonomous period followed by a two-minute Driver-Controlled period, the last 30 seconds of the Driver-Controlled period is called the End Game which adds new scoring opportunities for robots to achieve.

Autonomous Period:

During the Autonomous period, robots operate using only pre-programmed instructions. Alliances earn points by: claiming Beacons, moving the Cap Ball off of the Center Vortex base onto the field floor, scoring Particles into their alliance’s Center Vortex or Corner Vortex. Alliances may also gain points by parking their robot in contact with the Center Vortex base or on the Corner Vortex.

Driver-Controlled Period:

During the Driver-Controlled period, alliances earn points by scoring Particles into their alliance’s Center Vortex or Corner Vortex. Robots may also claim Beacons for their alliance by triggering them to illuminate their alliance color. There is no limit to the number of times that a Beacon may be triggered. At the end of the Game, the color of the Beacon determines the alliance credited for claiming it.

End Game:

The final 30 seconds of the Driver-Controlled period is called the End Game. In addition to the Driver-Controlled period tasks, alliances earn points by raising the Cap Ball off the playing field floor or by capping their Center Vortex with it.

Autonomous Period Scoring:

- Robot Parked partially on Center Vortex base5 points
- Robot Parked fully on Center Vortex base10 points
- Robot Parked partially on Corner Vortex5 points
- Robot Parked fully on Corner Vortex10 points
- Particle scored in Center Vortex 15 points/Particle
- Particle scored in Corner Vortex 5 points/Particle
- Cap Ball in contact with the floor5 points
- Claimed Beacon 30 points/Beacon
(plus 1 extra Particle per claimed Beacon, up to 2)

Driver-Controlled Period Scoring:

- Particle scored in Center Vortex 5 points/Particle
- Particle scored in Corner Vortex 1 point/Particle

End Game Scoring:

- Claimed Beacon10 points/beacon
- Cap Ball raised off floor but below 76 cm (30 inches)10 points
- Cap Ball raised above 76 cm (30 inches)20 points
- Cap Ball scored in Center Vortex Goal40 points
